Managing Microsoft Teams

Course Introduction

Microsoft Teams admins configure, deploy, and manage Office 365 workloads for Microsoft Teams that focus on efficient and effective collaboration and communication in an enterprise environment.

This training course is designed to provide participants with a clear overview of managing Microsoft Teams and allow them to manage live events and meetings experiences, manage phone numbers or Phone System for Microsoft Teams, and troubleshoot audio, video, and client issues.

This course covers six main topics: Microsoft Teams overview, implementing governance, security, and compliance for Microsoft Teams, preparing the environment for a Microsoft Teams deployment, deploying and managing teams, managing collaboration, and managing communication in Microsoft Teams.
