Maintenance Leadership Skills for Maintenance Professionals

Course Introduction

In the Industry Organizations, Skillful and Competent Leadership is extremely important for Safety, Productivity, and Asset Management. The 21st Century brings New emphasis on Leaders, New Communication Technologies, increased focus on Safety, Information Overload, Workforce Dynamics, Asset Integrity, and many other concerns that challenge even the most Proficient Leader/Manager. Anyone who has New Responsibilities to lead a Team, Supervisors, Team Leaders, Managers, and others interested in becoming a better Leader and a contributing team member will greatly benefit from this one-week experience. Many may want to take this Course more than once for continuous improvement.

How do we blend these New Challenges with the tried and true wisdom of success?

There are skills to learn that will help you be more Effective, with less Stress. In this course, you will explore your Internal drivers and learn how to combine them with New Skills for greater Effectiveness. Also, This Course will include Self-Assessment, Discussion, Lecture, Readings, Role-playing, Video Examples, and Creation of Participant Action Plans. Finally, this course will help you unleash Natural Motivation in your Team. Your Stress Level can be lowered by

working more efficiently and effectively by tapping the Emotional Intelligence of your Team and Co-workers.
