MS Office Powerpoint 2016 (Basic+Advanced)

Course Introduction

This training course is designed to provide participants with the basic and advanced techniques needed to create and modify presentations using Microsoft Office PowerPoint 2016. This course will allow participants to explore the PowerPoint environment and create a presentation.

This course covers topics such as formatting text on slides to enhance clarity and adding graphical objects to a presentation, adding tables and charts to a presentation to present data in a structured form, and customizing a presentation.
