System Administration II

Course Introduction

This training course is designed as the second part of the Red Hat Certified System Administrator (RHCSA) training track for IT professionals who have taken Red Hat System Administration I (RH124).

The course goes deeper into core Linux system administration skills, including storage configuration, security feature management, task control, and installation and deployment of Red Hat Enterprise Linux. This course is based on Red Hat Enterprise Linux 8.

System Administration II

Target Audience

- ✓ Cloud Computing Engineer
- ✓ Computer Network Specialist
- ✓ Computer Support Specialist
- ✓ Database Administrator
- ✓ Information Technology Analyst
- ✓ Information Technology Leadership
- ✓ Information Security Specialist
- ✓ Software/Application Developer
- ✓ Web Developer
- ✓ Technology sales consultant

System Administration II

Learning Objectives

- ✓ Install Red Hat Enterprise Linux using Kickstart
- ✓ Manage file systems and logical volumes
- ✓ Manage scheduled jobs
- ✓ Access network file systems
- ✓ Manage SELinux
- ✓ Control firewalls
- ✓ Perform troubleshooting tasks
