COBIT 2019 – IT Governance

Course Introduction

This **five-day** course provides participants with an in-depth understanding of COBIT 2019, a globally recognized framework for IT governance and management.

The course covers how to align IT goals with organizational objectives, optimize IT processes, and ensure the delivery of value from IT investments. Participants will explore key governance principles, implementation methods, and how to apply COBIT in real-world scenarios to drive organizational success.
