Management of Contracts Control and Claim

Course Introduction

This Management of Contracts Control and Claim course is designed to provide participants with a comprehensive understanding of contract management principles, control techniques, and claim resolution strategies.

This training program focuses on equipping participants with the knowledge and skills required to effectively manage contracts, maintain control over contractual obligations, and navigate the complexities of contract-related claims. Through this course, participants will gain insights into contract administration, risk management, dispute resolution, and strategies for mitigating claims.
