Organizational Management

Course Introduction

This comprehensive course is designed to equip participants with the skills and knowledge necessary to effectively manage organizational performance and achieve targets.

Throughout this program, participants will learn strategies for managing the delivery of targets, including setting SMART objectives, tracking performance using digital tools and analytics, and utilizing efficient consumer response systems (ECRS) to optimize tasks and processes. Additionally, participants will explore techniques for maximizing productivity through strategic organizational management, including resource allocation, time management, team collaboration, and decision-making.
