## Safety Leadership in the Oil and Gas Industry

### Course Introduction

#### The oil and gas industry

The oil and gas industry is one of the key sources of energy internationally, and the most profitable industry for many countries and multinational companies. Leading the safety of this industry is undeniably challenging, particularly influencing others to adopt health and safety as an important work goal. Through leading by example in the workplace, leaders can help build workers' safety knowledge and motivation. increase compliance with safety rules.

**This training course is designed to** provide participants with the essential and relevant concepts, principles, and techniques in utilizing powerful safety leadership and management to control the industry. This course will highlight topics such as identifying and controlling risks and hazards, creating a culture for improved safety, and using key behavioral safety coaching and techniques
