HR for Non HR Managers

Course Introduction

Human Resources is a vital unit in any organization as the function involves and begins from the time a requirement is posted for a particular role, position, designation, or vacancy, and continues to every aspect of an employee's role in the organization. As such, it is important for managers to have an understanding of the roles under this department in order to keep a company competitive while maintaining and managing a pool of highly delivering staff/ employees.

Concepts of human resources

This training course is designed to provide participants with the relevant concepts of human resources and the functions related to it. The course will enable participants to have an understanding of HR functions such as recruitment, training and development, performance management, and handling conflicts.
