Finance for non-finance Managers

Course Introduction

To succeed at any employment level and position, knowledge of basic financial principles is critical. **'Finance for Non-Finance Professionals'** transforms financial and accounting concepts into decision-making tools you can use successfully every day. You learn to apply the fundamentals of finance to improve budget management, increase potential profits, and assess the financial performance of business activities.

You will understand the terminology used by accounting and finance staff and will feel more confident when being involved with them or using them. This course will help you do a better job and prepare you for senior management positions where financial awareness is crucial.
