Global Trends in Sustainable Procurement

Course Introduction

The Procurement has evolved from a simple administrative function to a **strategic pillar** of organisational success. Beyond processing orders, it now drives **efficiency, sustainability, and long-term value**. Achieving this requires adopting best practices at **Strategic, Tactical, Operational, and Contingency levels**.

This **Sustainable Procurement** training course provides a **comprehensive guide** to implementing high-performing procurement practices that exceed international standards. Participants will gain **practical insights** on transforming Procurement into a key driver of value and sustainability within their organisations.
