Leadership in the Age of Digital Transformation

Course Introduction

Although disruption has long been a threat for some industries, the rise of digital technologies has accelerated the pace of disruption in virtually every industry, creating immense ambiguity and unease. Meanwhile, uncertainty continues to accelerate in the broader business environment as the rate at which new technologies emerge increases exponentially - all while competition becomes increasingly fierce. The dominance of established leaders has never been more under threat.

However, these changes are also creating immense opportunities, and the tools to prosper during the age of digital disruption are accessible and available. Drawing on research that uncovers the fundamentals of digital strategy, leadership and innovation, Leading Digital Transformation and Innovation provides an integrated view of leading digital transformation and innovation.

Building on three views of digital - the strategic view, the organizational view and the innovation view - Leading Digital Transformation and Innovation provides a comprehensive suite of tools to understand and lead your way through a digital transformation.
