Target Audience

Professionals interested in measuring performance:

Professionals from different fields, such as finance, human resources, production, logistics, information technology and others, interested in objectives and key results, will acquire the competencies needed to measure the performance of their team, department or organization.

Top/middle/lower management professionals:

Executives or operational managers, regardless of their field of expertise, will gain the ability and knowledge to measure performance and maximize the value of using OKRs. The tools and resources offered as part of the Certified OKR Professional Training Course enable managers to apply the concepts learned within their organizations immediately after the course.

Performance measurement experts:

For professionals like Data Analyst, Strategy Manager, Performance Management Officer or Performance Architect, it is important to develop competencies in measuring performance, especially in terms of OKR selection and data gathering.

Usually, this particular audience already has a performance measurement system set in place and the Course offers them the opportunity to learn the best practices used in this field and identify how their current processes and approaches regarding OKRs can be improved.
