PECB Certified ISO 14001 Foundation

Course Introduction

The PECB Certified ISO 14001 Foundation training course presents the basic information on the concepts of environmental management and an overview of the ISO 14001 requirements. By participating in this training course, you will be able to understand the different aspects of an EMS, including the environmental policy, operational controls, performance measurements, management commitment, internal audit, management review, and continual improvement.

The successful completion of the training course is followed by an exam. If you pass the exam, you can apply for the “PECB Certificate Holder in ISO 14001 Foundation” certificate. An internationally recognized “PECB ISO 14001 Foundation” certificate validates your professional capabilities and demonstrates your ability to take part in an implementation project of an EMS based on ISO 14001.
