PECB Certified ISO/IEC 27001 Lead Auditor

Course Introduction

The PECB Certified ISO/IEC 27001 Lead Auditor course is a professional training program designed to help participants develop the knowledge and auditing skills required to assess and audit an Information Security Management System (ISMS) based on the internationally recognized ISO/IEC 27001 standard.

This course focuses on the principles of information security management, enabling organizations to protect sensitive information, manage cybersecurity risks, and ensure compliance with global security standards. Participants will learn how to plan, conduct, manage, and report ISO 27001 audits effectively using internationally accepted auditing practices.

The program covers key topics such as information security governance, risk assessment, cybersecurity controls, compliance management, incident response, and audit methodologies. Learners will understand how organizations identify security vulnerabilities, implement risk mitigation strategies, and maintain secure operational environments.

A major focus of the course is auditing techniques and ISO compliance processes. Participants will study audit planning, evidence collection, nonconformity reporting, corrective actions, and continuous improvement frameworks used in ISMS auditing.

In addition, the course explains ISO 27001 requirements related to confidentiality, integrity, and availability of information. Learners will also explore security policies, access control, business continuity, data protection, and cybersecurity best practices.

This course is ideal for auditors, cybersecurity professionals, compliance officers, IT managers, risk managers, consultants, and individuals responsible for information security governance and regulatory compliance.

By completing this course, participants will gain the expertise needed to perform professional ISO 27001 audits, improve organizational cybersecurity practices, support compliance initiatives, and strengthen information security management systems across various industries.
