Leadership and Strategic Thinking

Course Introduction

This training course is designed to equip participants with the knowledge and skills necessary to lead strategically and drive organizational growth. Through a combination of interactive lectures, case studies, and group discussions, participants will explore various leadership styles, strategic thinking frameworks, and decision-making techniques. The course will cover the strategic planning process from visioning to implementation, with a focus on aligning strategies with organizational values and culture. Participants will also learn change management strategies to effectively lead and implement strategic initiatives. By the end of the course, attendees will be equipped to lead with vision, make strategic decisions, and drive positive change within their organizations.
