Advanced Real Estate Asset Management

Course Introduction

The **Advanced Real Estate Asset Management** course from **BOOST** is designed to equip real estate professionals with advanced strategies and techniques for managing property portfolios. The course covers the complexities of real estate investment, asset performance analysis, financial modeling, and the management of both commercial and residential properties. Participants will gain a deeper understanding of asset valuation, risk management, property lifecycle management, and the use of technology in optimizing real estate portfolios.

With a focus on maximizing returns and minimizing risk, this course prepares professionals to make informed decisions that align with long-term business goals in the real estate sector.
