International Project Finance and Funding Strategies

Course Introduction

This program is designed by Boost to provide professionals with practical knowledge of project finance structures, global funding mechanisms, and the strategic considerations needed for large-scale international projects. It emphasizes how financing models, risk allocation, and contractual frameworks align with project objectives and stakeholder interests.

Participants will explore project finance structures, sources of funding (public, private, multilateral), credit enhancements, and legal frameworks supporting cross-border financing. The program also focuses on risk mitigation tools, financial modeling techniques, and negotiation strategies that drive bankability and long-term sustainability of international projects.
