Learning Architect Masterclass Designing Transformative Educational Experiences

Course Introduction

In the modern era of learning and organizational transformation, the role of the Learning Architect has evolved from content creation to the strategic design of impactful, learner-centered experiences that drive measurable outcomes. This masterclass by **BOOST Consulting & Training** equips learning professionals with the frameworks, methodologies, and creative tools required to architect holistic learning journeys that integrate human psychology, digital innovation, and business alignment.

The program emphasizes how learning architects can move beyond traditional training delivery and focus on the full learning ecosystem — including culture, systems, experiences, and analytics.

Participants will explore how to analyze learner needs at multiple levels, align programs with strategic organizational goals, and design scalable and personalized learning experiences that engage, inspire, and transform.

Through a structured five-day learning journey, participants gain mastery in learning design strategy, performance consulting, blended learning architecture, and the integration of digital learning technologies. The course incorporates design thinking principles,

learning experience (LX) design models, and performance-based frameworks to help professionals transform learning into a sustainable engine for organizational growth and innovation.

By the end of this masterclass, participants will be equipped with the mindset, strategy, and practical tools to become true learning architects— capable of shaping the future of learning and education within their organizations.

Target Audience

- ✓ Learning & Development leaders and specialists
- ✓ Instructional Designers and Curriculum Developers
- ✓ Training Managers and Learning Consultants
- ✓ HR and Talent Development professionals
- ✓ Academic and Corporate Education Designers
- ✓ Learning Experience (LX) or Learning Design Professionals aspiring to a strategic role

Learning Architect Masterclass Designing Transformative Educational Experiences

Learning Objectives

- ✓ Understand the evolving role and competencies of a Learning Architect in modern organizations.
- ✓ Analyze learner and business needs through data-driven insights and design frameworks.
- ✓ Design end-to-end learning experiences that integrate digital, experiential, and collaborative methods.
- ✓ Apply learning experience (LX) design and design thinking methodologies to create innovative programs.
- ✓ Align learning architecture with strategic business outcomes and performance goals.
- ✓ Incorporate modern technologies, analytics, and learning platforms to enhance engagement and scalability.
- ✓ Build sustainable learning ecosystems that foster continuous improvement and innovation.

Learning Architect Masterclass Designing Transformative Educational Experiences

Course Outline

✓ DAY 01

The Role of the Learning Architect in a Modern Organization

- ✓ Introduction to Learning Architecture: shifting from course delivery to learning experience strategy.
- ✓ The transformation of L&D: from training provider to strategic business partner.
- ✓ Key mindsets and competencies of an effective Learning Architect.
- ✓ The Learning Ecosystem Model: systems, people, technology, and culture.
- ✓ Linking learning design to performance improvement and business impact.
- ✓ Global best practices and case studies from high-performing organizations.

Learning Architect Masterclass Designing Transformative Educational Experiences

Course Outline

✓ Day 02

Understanding Learners, Context, and Organizational Needs

- ✓ Conducting performance and learning needs analysis at individual, team, and organizational levels.
- ✓ Data-driven learning: using analytics and feedback to uncover learning gaps.
- ✓ Understanding the learner journey and cognitive behavior in adult learning.
- ✓ Empathy and learner personas: designing experiences around real human needs.
- ✓ Aligning learning objectives with strategic business outcomes.
- ✓ Translating insights into actionable design decisions.

Learning Architect Masterclass Designing Transformative Educational Experiences

Course Outline

✓ Day 03

Designing the Learning Experience Architecture

- ✓ Principles of Learning Experience (LX) Design and Instructional Systems Design (ISD).
- ✓ Frameworks for building learning journeys: ADDIE, SAM, Agile Learning, and Design Thinking.
- ✓ Mapping end-to-end learning experiences: pre-learning, during learning, and post-learning stages.
- ✓ Designing for blended learning: integrating in-person, virtual, social, and experiential components.
- ✓ Creating modular, scalable learning structures for different learner levels and job functions.
- ✓ The art of storytelling and narrative flow in learning experiences.

Learning Architect Masterclass Designing Transformative Educational Experiences

Course Outline

✓ Day 04

Integrating Technology, Innovation, and Measurement

- ✓ Leveraging digital learning tools and platforms (LMS, LXPs, microlearning, AI in learning).
- ✓ Designing immersive learning experiences: gamification, AR/VR, and simulation-based learning.
- ✓ Building interactivity and engagement through multimedia design principles.
- ✓ Establishing evaluation metrics and learning analytics to measure success and ROI.
- ✓ Using data dashboards to monitor learning impact and drive continuous improvement.
- ✓ Ensuring accessibility, inclusion, and usability across all learning touchpoints.

Learning Architect Masterclass Designing Transformative Educational Experiences

Course Outline

✓ Day 05

Implementation, Governance, and the Future of Learning Design

- ✓ Governance and quality assurance in learning architecture.
- ✓ Building sustainable learning ecosystems and innovation cultures.
- ✓ Managing stakeholders and securing leadership buy-in for learning initiatives.
- ✓ Driving organizational change through learning transformation.
- ✓ The future of the learning architect: AI, digital transformation, and lifelong learning strategies.
- ✓ Capstone reflection: developing an action plan to apply the Learning Architect model within participants' organizations.
