Governance, Risk Management & Compliance (GRC) - Entry to Mid

Course Introduction

Governance, Risk Management, and Compliance (GRC) form the foundation of organizational control, accountability, and sustainability. Without effective GRC practices, organizations face operational failures, regulatory breaches, reputational damage, and strategic misalignment.

Developed by **Boost**, this course is designed to provide entry- to mid-level professionals with a clear, practical understanding of GRC as an integrated management system—not as isolated policies or audit requirements. The program focuses on how governance structures, risk awareness, and compliance practices work together to support decision-making, protect the organization, and enable responsible performance.

Boost's GRC - Entry to Mid-course equips participants with the knowledge and tools needed to support governance and control functions in real organizational environments.

Governance, Risk Management & Compliance (GRC) - Entry to Mid

Target Audience

- ✓ Governance and compliance officers
- ✓ Risk management and internal control staff
- ✓ Legal, finance, and operations professionals
- ✓ Supervisors and coordinators involved in control activities
