AI for Legal - Entry to Mid

Course Introduction

Artificial Intelligence is increasingly reshaping legal work—from document review and contract analysis to legal research and case preparation. For legal professionals, AI is not about replacing legal judgment, but about enhancing efficiency, accuracy, and insight.

Developed by **Boost**, this course is designed to introduce legal professionals to practical applications of AI within legal functions. The program focuses on how AI can support legal research, drafting, review, risk identification, and workflow optimization—while maintaining legal responsibility, ethics, and professional judgment.

Boost's AI for Legal - Entry to Mid-course enables legal teams to work smarter with AI tools while understanding their limitations and risks.
