Materials Management

Course Introduction

Materials management is a critical operational function that directly affects cost control, service continuity, and organizational efficiency. Ineffective planning, weak coordination, or poor control over materials often lead to shortages, excess stock, operational delays, and financial losses.

Developed by **Boost**, this course presents materials management as an end-to-end management discipline, integrating planning, control, coordination, and performance monitoring across the materials lifecycle. The program equips participants to manage materials proactively, align materials decisions with operational needs, and support organizational objectives through disciplined materials management practices.

Boost's Materials Management - Intermediate course enables professionals to move from reactive material handling to structured, value-driven materials control.

Materials Management

Target Audience

- ✓ Materials and inventory management professionals
- ✓ Warehouse and stores supervisors
- ✓ Procurement and supply chain staff
- ✓ Operations and maintenance planners
- ✓ Project and facility support teams

Materials Management

Learning Objectives

- ✓ Understand the role of materials management in operations and cost control
- ✓ Apply structured approaches to materials planning and control
- ✓ Coordinate materials activities across functions
- ✓ Improve availability while reducing excess and waste
- ✓ Manage materials performance using practical indicators
- ✓ Support operational continuity and efficiency

Materials Management

Course Outline

✓ Day 01

Foundations of Materials Management

Module 1: Understanding Materials Management

- ✓ Role and scope of materials management
- ✓ Materials management vs. inventory control
- ✓ Impact on cost, service, and operations

Module 2: Materials Lifecycle Perspective

- ✓ Planning, sourcing, storage, use, and disposal
- ✓ Cross-functional coordination
- ✓ Common materials management failures

ABU DHABI: +971 2 449 6000

ABU DHABI: +971 50 412 3294

DUBAI: +971 4 888 6787

KSA: +966 56 416 0617

EGYPT: +20 127 111 1770

Materials Management

Course Outline

✓ Day 02

Materials Planning and Control

Module 3: Materials Planning Principles

- ✓ Demand-driven vs. consumption-based planning
- ✓ Safety stock concepts
- ✓ Balancing availability and cost

Module 4: Materials Control Mechanisms

- ✓ Reorder points and control methods
- ✓ Managing critical and non-critical materials
- ✓ Preventing shortages and overstock

ABU DHABI: +971 2 449 6000

ABU DHABI: +971 50 412 3294

Materials Management

Course Outline

✓ Day 03

Inventory Management and Optimization

Module 5: Inventory Classification and Prioritization

- ✓ ABC and criticality concepts
- ✓ Differentiated control strategies
- ✓ Focus on high-impact materials

Module 6: Inventory Optimization Approaches

- ✓ Reducing slow-moving and obsolete items
- ✓ Improving turnover and utilization
- ✓ Coordination with maintenance and operations

ABU DHABI: +971 2 449 6000

ABU DHABI: +971 50 412 3294

Materials Management

Course Outline

✓ Day 04

Coordination, Performance, and Risk

Module 7: Coordinating Materials Across Functions

- ✓ Alignment with procurement, warehousing, and users
- ✓ Managing information flow
- ✓ Preventing duplication and miscommunication

Module 8: Materials Performance and Risk Management

- ✓ Material-related risks
- ✓ Monitoring service levels and availability
- ✓ Managing disruptions and contingencies

ABU DHABI: +971 2 449 6000
ABU DHABI: +971 50 412 3294

Materials Management

Course Outline

✓ Day 05

Governance and Continuous Improvement

Module 9: Materials Management Policies and Controls

- ✓ Roles, responsibilities, and authority
- ✓ Documentation and procedures
- ✓ Compliance and accountability

Module 10: Continuous Improvement in Materials Management

- ✓ Identifying improvement opportunities
- ✓ Measuring success and performance indicators
- ✓ Building sustainable materials practices
