Biodiversity and Human Well-Being

Course Introduction

Biodiversity—the variety of life on Earth—is fundamental to human well-being, economic stability, and environmental resilience.

Ecosystems provide essential services that support food security, clean water, health, livelihoods, and climate regulation. However, accelerating biodiversity loss driven by human activity has created significant risks to societies, economies, and long-term sustainability.

In response to these global challenges, **BOOST** has developed the **Biodiversity and Human Well-Being** course for professionals who already have a basic understanding of environmental or sustainability concepts and wish to deepen their knowledge of the relationship between biodiversity and human systems. This intermediate-level program focuses on understanding how biodiversity underpins social and economic well-being, and how policies, organizations, and communities can manage biodiversity risks and opportunities more effectively.

The course emphasizes an integrated perspective, linking ecological systems with public health, livelihoods, development planning, and environmental governance. Participants explore how biodiversity

considerations are increasingly embedded in sustainability strategies, climate responses, and development frameworks.

Through structured discussions, applied examples, and interdisciplinary analysis, participants strengthen their ability to assess biodiversity impacts, contribute to informed decision-making, and support initiatives that protect ecosystems while enhancing human well-being.

Biodiversity and Human Well-Being

Target Audience

- ✓ Environmental and sustainability professionals
- ✓ Policy and planning professionals
- ✓ Public sector and regulatory staff
- ✓ Development and social program practitioners
- ✓ Corporate sustainability and ESG professionals
- ✓ Researchers and analysts in environmental or social fields
- ✓ Professionals involved in natural resource management

ABU DHABI: +971 2 449 6000

Biodiversity and Human Well-Being

Learning Objectives

- ✓ Understand the relationship between biodiversity and human well-being
- ✓ Explain key ecosystem services and their societal value
- ✓ Analyze the impacts of biodiversity loss on health, livelihoods, and development
- ✓ Understand drivers of biodiversity degradation and associated risks
- ✓ Assess biodiversity considerations in policy and planning contexts
- ✓ Recognize the role of institutions and communities in biodiversity protection
- ✓ Support sustainable development initiatives that integrate biodiversity
- ✓ Apply systems thinking to biodiversity and well-being challenges

Biodiversity and Human Well-Being

Course Outline

✓ DAY 01

Foundations of Biodiversity and Human Well-Being

- ✓ Understanding biodiversity: genes, species, and ecosystems
- ✓ Why biodiversity matters to human societies
- ✓ Ecosystem services and human dependence on nature
- ✓ Biodiversity and sustainable development
- ✓ Social, cultural, and economic dimensions of biodiversity
- ✓ Global and local biodiversity challenges

ABU DHABI: +971 2 449 6000

ABU DHABI: +971 50 412 3294

DUBAI: +971 4 888 6787

KSA: +966 56 416 0617

Biodiversity and Human Well-Being

Course Outline

✓ Day 02

Biodiversity, Health, and Livelihoods

- ✓ Biodiversity and human health connections
- ✓ Food systems, nutrition, and biodiversity
- ✓ Livelihoods and ecosystem-based economies
- ✓ Indigenous and local community perspectives
- ✓ Vulnerability and inequality linked to biodiversity loss
- ✓ Case discussion on biodiversity and social outcomes

ABU DHABI: +971 2 449 6000

ABU DHABI: +971 50 412 3294

Biodiversity and Human Well-Being

Course Outline

✓ Day 03

Drivers of Biodiversity Loss and Risk Assessment

- ✓ Land-use change, pollution, and resource extraction
- ✓ Climate change and biodiversity interactions
- ✓ Overexploitation and invasive species
- ✓ Assessing biodiversity-related risks
- ✓ Cumulative and systemic impacts
- ✓ Understanding trade-offs and unintended consequences

ABU DHABI: +971 2 449 6000

ABU DHABI: +971 50 412 3294

Biodiversity and Human Well-Being

Course Outline

✓ Day 04

Governance, Policy, and Biodiversity Management

- ✓ Biodiversity governance and institutional roles
- ✓ Integrating biodiversity into policy and planning
- ✓ Conservation, restoration, and sustainable use approaches
- ✓ Community-based and ecosystem-based management
- ✓ Monitoring biodiversity and measuring outcomes
- ✓ Challenges in implementation and enforcement

ABU DHABI: +971 2 449 6000

ABU DHABI: +971 50 412 3294

Biodiversity and Human Well-Being

Course Outline

✓ Day 05

Integrating Biodiversity into Sustainable Futures

- ✓ Biodiversity in sustainability and development strategies
- ✓ Nature-based solutions and resilience building
- ✓ Aligning biodiversity protection with human well-being goals
- ✓ Stakeholder engagement and collaboration
- ✓ Designing integrated biodiversity action plans

ABU DHABI: +971 2 449 6000
