## Collaborative Decision-Making Strategies

### Course Introduction

Clear, confident decision making is one of the central criteria for promotion into executive ranks. Yet many executives report that making decisions is one of their biggest professional challenges. This training course will examine the art

and science of strategic decision making. You will learn how to identify the most strategically important dimensions on which to ground your decisions, and to scan your environment for your best possible options. You'll also gain experience with proven techniques for making better strategic decisions in the face of complexity, uncertainty and conflicting objectives.
