Advanced AI Project Management and Implementation

Course Introduction

Artificial Intelligence (AI) initiatives are complex, requiring careful planning, cross-functional coordination, and rigorous management to deliver tangible business value. This program equips participants with advanced skills to manage AI projects end-to-end—from ideation and use case definition to deployment and evaluation. Participants will learn how to define AI project objectives, manage resources, and align technical delivery with business outcomes.

The course emphasizes practical strategies for working with data scientists, engineers, and stakeholders to ensure projects meet business goals within realistic timelines. Participants will gain tools, frameworks, and best practices to mitigate risks, monitor progress, and optimize AI project success.

Advanced AI Project Management and Implementation

Learning Objectives

- ✓ Define AI use cases that align with strategic business objectives.
- ✓ Develop detailed AI project plans, including timelines, milestones, and resources.
- ✓ Coordinate effectively with data, engineering, and development teams.
- ✓ Monitor AI project progress and implement risk mitigation strategies.
- ✓ Ensure AI initiatives deliver measurable business outcomes and value.

Advanced AI Project Management and Implementation

Course Outline

✓ DAY 01

AI Strategy and Use Case Development

- ✓ Identifying opportunities for AI within the organization
- ✓ Aligning AI initiatives with business strategy and goals
- ✓ Defining high-impact AI use cases
- ✓ Prioritizing AI projects based on feasibility and value
- ✓ Establishing success metrics and KPIs

ABU DHABI: +971 2 449 6000

ABU DHABI: +971 50 412 3294

Advanced AI Project Management and Implementation

Course Outline

✓ Day 02

AI Project Planning and Governance

- ✓ Developing AI project roadmaps and timelines
- ✓ Resource planning: teams, budgets, and infrastructure
- ✓ Defining roles and responsibilities for AI initiatives
- ✓ Risk assessment and mitigation strategies
- ✓ Project governance and reporting frameworks

ABU DHABI: +971 2 449 6000

ABU DHABI: +971 50 412 3294

Advanced AI Project Management and Implementation

Course Outline

✓ Day 03

Collaboration with Data and Development Teams

- ✓ Understanding data requirements for AI projects
- ✓ Coordinating with data engineers, data scientists, and software developers
- ✓ Managing dependencies and integration challenges
- ✓ Agile and iterative approaches for AI project delivery
- ✓ Communication strategies for cross-functional teams

ABU DHABI: +971 2 449 6000

Advanced AI Project Management and Implementation

Course Outline

✓ Day 04

AI Model Deployment and Change Management

- ✓ Planning for deployment in production environments
- ✓ Monitoring AI model performance and quality
- ✓ Addressing model drift and performance issues
- ✓ Change management and adoption strategies
- ✓ Feedback loops for continuous improvement

ABU DHABI: +971 2 449 6000

ABU DHABI: +971 50 412 3294

Advanced AI Project Management and Implementation

Course Outline

✓ Day 05

Evaluating Outcomes and Scaling AI Initiatives

- ✓ Measuring project success against business KPIs
- ✓ ROI analysis for AI initiatives
- ✓ Lessons learned and knowledge sharing
- ✓ Scaling AI solutions across the enterprise
- ✓ Case studies of successful AI project delivery
