Pollution Control and Waste Management

Course Introduction

This course helps to raise both personal and public awareness of environmental issues, including the benefits of reducing, reusing, and recycling general environmental waste materials. These materials would otherwise be taken to landfill sites, where they contribute greatly to environmental issues and encourage pollution in various forms. The course helps its attendants identify items that can be recycled through a recycling management program.

This Training Course will give details on these various types of contaminants and the new frontiers in eliminating or minimizing these contaminants, the use of effective non-hazardous products in your company, and also environmentally acceptable methods of disposal for both hazardous and non-hazardous wastes.

Pollution Control and Waste Management

Target Audience

- ✓ Health and Safety Officers
- ✓ Environmental Health and Safety professionals
- ✓ Health and Safety Managers
- ✓ All professionals use health and safety requirements in their work processes

ABU DHABI: +971 2 449 6000

Pollution Control and Waste Management

Learning Objectives

- ✓ The implications of the production, resource management, and environmental impact of solid waste management
- ✓ The components of solid waste management infrastructure systems, to minimize these effects
- ✓ Recycling, Reuse, and Reclamation of Solid Wastes
- ✓ Relationships between inappropriate waste management practices and impacts on water, soil, and sediment quality
- ✓ Current practices are prominent in Waste
- ✓ The Implementation of systems available in solid waste management
- ✓ Assessing environmental guidelines, human activities, and the environmental quality of impacted soils and water
- ✓ Integrating solid waste management options and imposing environmental legislation and guidance to develop a legal and safe solution

Pollution Control and Waste Management

Course Outline

✓ Day 01

Sustainable Waste Management: An International Context

- ✓ Waste Management Policies
- ✓ Sustainable Waste Management: Best Practice
- ✓ Environmental Risks and Their Management and Control
- ✓ Managing Pollution in the Environment
- ✓ Understanding the Life Cycle of Waste

ABU DHABI: +971 2 449 6000

ABU DHABI: +971 50 412 3294

DUBAI: +971 4 888 6787

Pollution Control and Waste Management

Course Outline

✓ Day 02

Waste Prevention

- ✓ Waste Prevention Best Practice in the Industry
- ✓ The True Cost of Waste
- ✓ Behavior and Culture of Waste Management
- ✓ Industrial Solid Waste: Audits and Minimization Strategies
- ✓ Management of Landfills
- ✓ Industrial Waste Strategies

ABU DHABI: +971 2 449 6000

ABU DHABI: +971 50 412 3294

Pollution Control and Waste Management

Course Outline

✓ Day 03

Re-Use and Recycling of Waste

- ✓ The Role of Materials Recovery Facilities (MRFs)
- ✓ The Role of Transfer Stations
- ✓ The Science of Composting in Waste Management
- ✓ Open Windrow Composting
- ✓ 'In-Vessel Composting' (IVC)
- ✓ Food Waste

ABU DHABI: +971 2 449 6000

Pollution Control and Waste Management

Course Outline

✓ Day 04

Waste Recovery

- ✓ AD of Food Waste
- ✓ Good Practice in the Management of Food Waste
- ✓ Waste Incineration with Energy Recovery
- ✓ Energy from Waste Incineration (EfW)
- ✓ EfW for Municipal Waste
- ✓ Landfill: Hazards and Risks

ABU DHABI: +971 2 449 6000
ABU DHABI: +971 50 412 3294

Pollution Control and Waste Management

Course Outline

✓ Day 05

Land Waste Disposal

- ✓ Principles of Sustainable Landfill in Various Countries
- ✓ Landfill: Engineering Considerations
- ✓ Long-Term Storage of Waste
- ✓ The Future of Waste Management
- ✓ Course Summary
