CMI Recognized Certified Team Leader

Course Introduction

Effective team leadership is essential for driving performance, productivity, collaboration, and engagement in today's fast-paced work environment. Team leaders play a critical role in translating organizational goals into daily actions, motivating team members, managing performance challenges, and ensuring consistent results. To succeed, leaders must build strong communication skills, lead with confidence, manage workplace dynamics, and develop high-performing teams.

To support the development of capable frontline leaders, **BOOST Consulting & Training** has developed the CMI Recognized Certified Team Leader program. This course equips current and aspiring team leaders with essential leadership knowledge, practical tools, and professional competencies required to lead teams effectively.

The program focuses on core leadership skills such as communication, delegation, coaching, motivation, performance management, problem solving, and leading change. It emphasizes practical leadership behaviors aligned with recognized professional management standards. Participants will gain the ability to build trust, manage workloads, improve team collaboration, handle

workplace challenges, and lead teams using a structured and results-driven approach.
