ISO 55001 2014 Lead Auditor (Asset Management Systems) - Lead Auditor

Course Introduction

In today's world of complex and ever-changing financial marketplaces, ISO 55001 is crucial in proving the ability to run a more streamlined operation and a good corporate reputation. ISO 55001 is an asset management system standard, the main objective of which is to help organizations manage the lifecycle of assets more effectively. By implementing ISO 55001, organizations will have better control over daily activities, achieve higher returns with their assets, and reduce the total cost of risk.

The key Audit Techniques

This training course is designed to provide participants with the key Audit Techniques, Audit Process, and Audit Requirements for ISO 55001:2014. This course will help participants develop the necessary expertise to conduct an Asset Management System (AMS) audit by applying widely recognized audit principles, procedures, and techniques.
