Lean Six sigma - Black Belt

Course Introduction

The lean six sigma master black belt training course is the topmost qualification that professionals with functions related to Six Sigma can obtain. The master black belt demonstrates absolute expertise in Lean Six Sigma; hence, it is highly sought after. The master black belt training builds upon skills attained from previous belt levels and expands these to a strategic level. Participants will be able to acquire the skills and capabilities to construct business frameworks that will assist the progression of the organization.
