## ISO 27001 Information Security Management System

### Course Introduction

With increasing cybersecurity threats and regulatory requirements, organizations must establish robust information security frameworks.

**BOOST** presents this comprehensive **five-day** training on **ISO 27001 Information Security Management System (ISMS)**, designed to equip professionals with the knowledge and skills to implement, manage, and audit an ISO 27001-compliant security system. Participants will gain practical insights into risk assessment, security controls, compliance requirements, and continuous improvement of information security.
