Strategic Management and Planning Masterclass (CPD Certified)

Course Introduction

We couldn't agree more with Henry A. Kissinger when he said, "If you do not know where you are going, every road will get you nowhere".

If your organization is growing and hopes to sustain that growth, you need a set of strategies to guide its development, build a solid foundation, and prepare for challenges that lie ahead. In other words, you need a strategic plan.

This intensive training program will enable you to take your existing knowledge and skills in strategy planning to a higher level and make a major contribution to the development of your organization in a rapidly changing and increasingly competitive global business environment.
