ROOST

Professional Certificate in Research Methods, Data Analysis and Report Writing for Public Sector Org

Course Introduction

In today's data-rich landscape, public sector professionals must possess the essential competencies to effectively collect, utilize, comprehend, and interpret data. This training program integrates real-world scenarios to facilitate a clear understanding of various concepts and methodologies, fostering practical application through hands-on activities with data and graphs.

Participants will gain insights into qualitative data analysis principles, encompassing problem definition, hypothesis formulation, variable analysis, and methodological approaches. Additionally, they will acquire skills in questionnaire design, SPSS data analysis, and report generation, enhancing their academic and report-writing abilities. The course empowers attendees to leverage data for strategic planning, enhance public management decision-making, and adeptly interpret statistical presentations and visualizations, thus strengthening their analytical prowess and professional acumen in the public sector.
