Artificial Intelligence for Leaders

Course Introduction

Society and organizations are creating petabytes of data, and with Artificial Intelligence (AI) we can put that data to work in order to improve well-being, increase revenue, and reduce costs. With modern technology, we can use internal and external, structured and unstructured data and apply Artificial Intelligence to bring new possibilities to make predictions, improve decision-making, improve company performance, and augment human capabilities. However, this new field of science comes with new terminologies and technologies.

But it is not just about data and technology. To really create business value with AI, you need to scale up from isolated Proof of Concepts to a coherent approach and prepare the organization for effective use of AI.

That needs a vision to define the best opportunities for AI to support the business, it needs a framework to understand which capabilities in the organization need to be improved, and an implementation strategy to know what to do where and when.

The business AI leader

This course provides participants with the AI literacy to be the business AI leader in their organizations, to understand AI concepts and use cases, to converse on a qualified level with the data specialists, to create an AI strategy and develop an AI ready organization, to know how to set up and run an AI project and to assess the make or buy decision of tooling.

Artificial Intelligence for Leaders

Target Audience

- ✓ Business and technology leaders
- ✓ Business Unit Managers
- ✓ Business Development Consultants
- ✓ General Managers / Regional Managers
- ✓ Senior and mid-level leaders
- ✓ Individual leaders of all levels in the organization
- ✓ Art Director
- ✓ Marketing Consultants
- ✓ Marketing Development Manager

Artificial Intelligence for Leaders

Learning Objectives

- ✓ Gain a comprehensive understanding of the concept of AI and its importance.
- ✓ Learn about the concept of data, data visualization, and data security
- ✓ Identify the approaches to Machine Learning and Deep Learning
- ✓ Recognize some of the AI technology implementations and the possibility of implementing them in the respective organization
- ✓ Gain a comprehensive understanding of the concept of AI and its importance.
- ✓ Learn about the concept of data, data visualization, and data security
- ✓ Identify the approaches to Machine Learning and Deep Learning
- ✓ Recognize some of the AI technology implementations and the possibility of implementing them in the respective organization

Artificial Intelligence for Leaders

Course Outline

✓ Day 01

Why talk AI now?

- ✓ History of AI
- ✓ Big Data
- ✓ Processing Power
- ✓ Potential of AI

Importance of data

- ✓ Generating Insights from Data
- ✓ Data Science as a Profession
- ✓ Data Visualization
- ✓ Data Security
- ✓ Telecommunications Data

ABU DHABI: +971 2 449 6000
ABU DHABI: +971 50 412 3294
DUBAI: +971 4 888 6787
KSA: +966 56 416 0617
EGYPT: +20 127 111 1770

Artificial Intelligence for Leaders

Course Outline

✓ Day 02

AI Fundamentals

- ✓ What is AI?
- ✓ How does AI work?
- ✓ AI concepts
- ✓ Approaches to Machine Learning and Deep Learning

ABU DHABI: +971 2 449 6000
ABU DHABI: +971 50 412 3294
DUBAI: +971 4 888 6787

Artificial Intelligence for Leaders

Course Outline

✓ Day 03

AI Technology Implementations

- ✓ Search Engines
- ✓ Natural Language Processing
- ✓ Computer Vision
- ✓ Robotics

ABU DHABI: +971 2 449 6000

ABU DHABI: +971 50 412 3294
