Strategic Planning Using the Balanced Scorecard

Course Introduction

To measure the overall performance in attaining the strategic objectives organizations dedicate significant time, energy, human and economic resources. Balanced scorecard is a management tool that provides stakeholders with a comprehensive measure of how the organization is progressing towards the achievement of its strategic goals. Key performance indicators are the metrics that may be the part of the balanced scorecard. KPIs are used to present actionable results across the organization.

This training course is designed to provide participants with the essential concepts related to the use and implementation of Balance Scorecard with a focus on achieving the strategy. This course aims to empower participants to develop a balanced scorecard, enhance internal processes to deliver what customers want, and achieve financial success.
