The Strategic Leader: Planning, Negotiation & Conflict Management

Course Introduction

Strategic leadership capability ensures that organizations have corporate culture that values collaboration and trust as a foundation for improved performance. Real strategic Leadership requires that managers and leaders at all levels create the mindsets and behaviors that are needed to transform the organization from its existing paradigm to the new strategic paradigm that the vision sets forth.

This training course is designed to provide participants with the relevant concepts of strategic thinking and leadership competencies in order to lead a high-performing organization towards a long-term success. This course will focus on the strategic leadership skills: planning, negotiation and conflict management that will allow them to become effective leaders that creates real value out of the strategic process.
