Managing Innovation

Course Introduction

This training course is designed to provide participants with a comprehensive exploration of the principles, strategies, and practices essential for effective innovation management in today's dynamic business landscape.

Over the course of three days, participants will delve into the various facets of innovation, including its types, drivers, and challenges, gaining a deep understanding of its significance for organizational success. Through interactive sessions, case studies, and practical exercises, participants will learn how to develop and implement innovation strategies, foster a culture of creativity and experimentation, and lead cross-functional innovation teams. Additionally, the course will cover methodologies for managing the innovation process from idea generation to implementation and evaluation, equipping participants with the tools and skills needed to overcome common barriers to innovation and sustain innovation efforts over time.
