## PECB Certified ISO 22301 Lead Implementer

### Course Introduction

Disasters have various impacts in organizations. Disasters can result from natural events, information security breaches, or various other incidents. They are often unpredictable and that highlights the significance of preparedness in setting your business apart and shaping its future. As such, proper planning is essential in reducing risks, minimizing consequences, and managing the negative impacts of disasters and incidents while ensuring the continuity of daily operations to meet customer needs without interruption.

Establishing a BCMS based on ISO 22301 can help organizations progress toward understanding and managing disasters, incidents, and risks. Therefore, this training course is designed to provide participants with the necessary knowledge and skills to implement a business continuity management system (BCMS) based on the requirements of ISO 22301. By participating in this training course, you will learn the best practices of business continuity management, enabling the establishment of a framework that ensures an organization's continued operational effectiveness during disruptive events.

Upon completing the training course, you are eligible to take the exam. If you pass the exam, you can apply for the “PECB Certified

ISO 22301 Lead Implementer” credential. The internationally recognized “PECB Certified ISO 22301 Lead Implementer” certificate demonstrates that you have the professional skills and practical knowledge to implement a BCMS based on the requirements of ISO 22301.
