Growth Through Innovation

Course Introduction

Today, innovation performance is a crucial determinant of competitiveness and organizational progress. Moreover, innovation is important to help address global challenges and sustainable development.

This course is designed to provide participants with practical tools and techniques to help them generate and gain support for how to grow through creativity and innovation in the workplace. Participants will explore the conditions necessary for growth, creativity, and innovation to thrive in the workplace and in Business life. Through highly interactive group activities, self-assessment, and discussion, participants will practice a wide range of techniques to access their creative capacities, develop persuasive cases in order to implement new ideas, and obtain buy-in for innovation from stakeholders.

Participants are strongly encouraged to come to class with a situation (i.e., problem, issue, challenge, or goal) that has them stuck.
