Corporate Governance Best Practices

Course Introduction

This Corporate Governance training program aims at improving the adaptation and integration of the fundamental components of Corporate Governance and its tools.

This course will therefore cover Corporate Governance and its functions, achieving cooperation among these functions, and improving the Corporate Governance process within the organization.

Risk Management

It aims at attaining and improving the concepts, roles, tools, added value, and functions of the Governance environment tools within an organization, such as Risk Management, Compliance, and Internal Audit in order to achieve cooperation among these functions and improve their process and harmony.
