Quality Risk Management in ISO 9001:2015

Course Introduction

Risk management is a critical component of maintaining and improving quality management systems (QMS) under ISO 9001:2015.

This **5-day** course, offered by **BOOST**, focuses on integrating risk-based thinking into your QMS to ensure organizational resilience and continuous improvement.

Participants will learn how to identify, assess, and mitigate risks while aligning with ISO 9001:2015 requirements. Through a combination of theoretical insights and practical applications, this course prepares professionals to lead risk management initiatives that enhance quality and drive business success.
